

**June 2024**

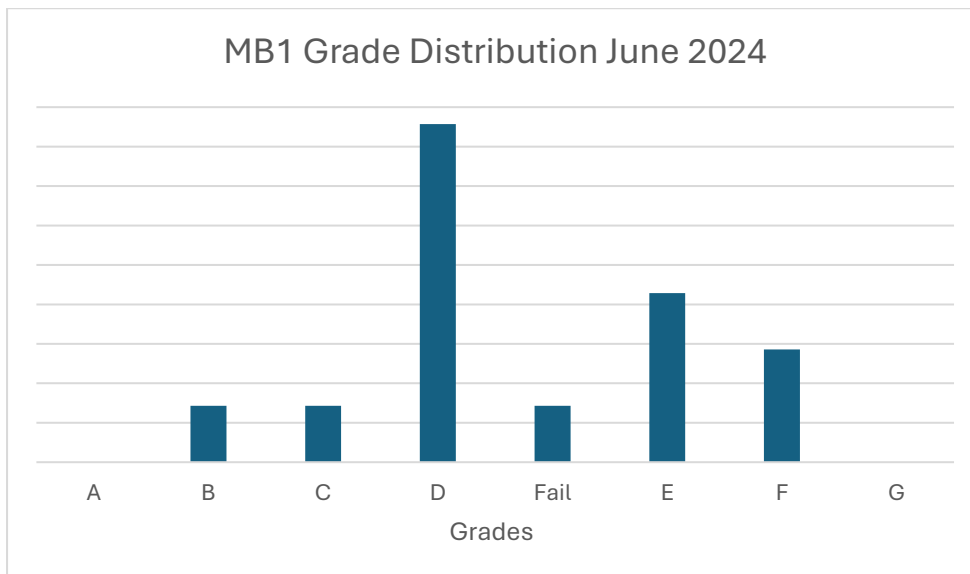

**Master Brewer Module 1  
Examination Report**

## **Master Brewer – Module 1**

For both papers 1 & 2, candidates on average utilised 98% of the total available examination time

### **Overall**

- Overall cohort pass rate = 57%
- Cohort performance split by grade boundary:

### **General Commentary**

#### **Reading and Understanding**

- A number of candidates performed well in both paper 1 & paper 2 demonstrating that they were well prepared for their Master Brewer 1 examinations

#### **Time Management**

- Several candidates failed to answer the requisite number of questions in Paper 2 which either indicates a deficit of knowledge or an inability to manage time in the examination.

#### **Application of Knowledge**

- The question on brewhouse cleaning regimes was attempted by most candidates and generally answered well
- This was also the case for the question regarding water sources
- The questions on raw materials and grists was not attempted by many candidates, those who did attempt this question did not score particularly well.
- Some candidates scored particularly well in a small number of the LAQs however, this performance was not replicated across the rest of paper 2 or in paper 1. This indicates a

depth of experience and knowledge in a few areas but a lack of the depth and breadth across the scope of the whole syllabus.
